STATEMENT OF SUBSTANCE OF INTERVIEW

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Please enter the following remarks in the above-identified patent application regarding the personal interview conducted on April 11, 2007.

Applicants' representative would like to thank Examiner Loving and SPE Moise for the courtesies extended during the personal interview conducted on April 11, 2007. In attendance were Applicants Stephen F. Bisbee and Jack J. Moskowitz, as represented by Richard J. Kim.

The substance of the interview included a discussion of independent claims 1, 11 and 15. For example, Applicants have presented claim 1, and related the features of the claims against the drawing shown in Fig. 1.

Applicants traversed the substantive rejections of record. For example, Applicants respectfully submitted that US Patent 6,301,658 (Kohler) would not have taught or suggested at least, among other features, " identifying information needed for retrieving a status of an authentication certificate from an issuing CA that issued the authentication certificate; configuring a connector based on the identified

information for communicating with the issuing CA; and communicating with the issuing CA according to the configured connector when the status of the authentication certificate is queried," as recited in claim 1. Applicants also presented arguments against the substantive rejection of independent claims 11 and 15. Applicants explained the overall features of claim 19 in traversing the substantive basis of rejection.

It was understood that Examiner Loving will further search and consider the last Amendment of record filed with a Request for Continued Examination on March 30, 2007, in light of the arguments presented during the April 11 personal interview.

Should there be any questions regarding this statement of substance of interview, the undersigned can be reached at the number below.

Respectfully submitted,

BUCHANAN INGERSOLL & ROONEY PC
